Semi Permanent Make-Up

For The Eyebrows

This method can be used to correct the shape and colour of eyebrows. It is particularly recommended for:

- Thin or non-existent eyebrows
- People who have difficulty pencilling in their eyebrows due to poor eyesight
- Scar tissue on brows
- Sufferers of alopecia
- The effect should last from 1–3 years depending on skin type
- This is not considered tattooing, as pigment is only placed in the upper layer of the skin and not the lower dermis
- Price on consultation
- Consultation and skin test **(£10)**
